### Installation Requirements

### Dimensions

#### NOTES:

- See cooktop manufacturer's instructions for cooktop cutout depth and width.
- Use dimensions for vent system cutout location that applies to your installation.
- Interior mounted blower systems connect with 3 1/4" x 10" (8.3 x 25.4 cm) rectangular or 6" (15.2 cm) round vent system. The cutout locations for this vent system will depend on your specific installation.

Dimensions are for planning purposes only.  
For complete details, see Installation Instructions packed with product.
